

# Space availability at a glance

A 3D overview that makes the next step obvious.

See what's open, what's in use, and where to go instantly. Check a whole floor or zoom in on specific rooms, desks, and parking areas, then book directly from the map when needed.

## Core features

### Instant 3D visualization

- Real-time bird's-eye view of floors, rooms, desks, and parking
- Clear status at a glance, no guessing

### Interactive booking

- Check availability and book directly from the floor plan
- Use an at-a-glance view or an interactive mode (as configured)

### Find a colleague

- See where teammates are working and book nearby spaces
- Make planning feel effortless, especially on busy days

### Manage parking spaces

- View parking availability and book in a click
- Keep the status clear for everyone

### Mobile and remote access

- Book from your phone, browser, or Microsoft Teams
- Stay in control even when you're not in the office

## Why Choose Humly Floor Plan?

### Time-Saving Efficiency

Eliminate the guesswork of finding available spaces, saving time for employees and guests.

### Seamless Integration

Combine with Humly Reservations or Wayfinding for a complete workplace solution.

### Flexible Booking

Configure any bookable resource, from desks to parking spaces, for a tailored experience.

### Intuitive Design

Easy-to-use visual interface requires no training.

### Enhanced Collaboration

Locate colleagues and resources effortlessly, fostering better teamwork.

### Multilanguage Support

31 languages available.

With Humly Floor Plan, your office is always at your fingertips—simplifying workplace navigation, bookings, and resource management.

## Technical specifications

### Details include

- Meeting details and room name
