

Description

The Rumble-KU210 is an ultra-thin, high-performance passive subwoofer designed to be the perfect companion to the K-array mid-high speaker for AV applications. A combination of extended frequency response with prodigious output and a virtually invisible profile make the KU210 an ideal solution even for the most ambitious projects.

The subwoofer is comprised of a 10" neodymium transducer, combined with a 10" passive transducer, instead of a reflex, which ensures that the device remains completely sealed, making it impenetrable by foreign objects such as dust, sand or water.

It is made entirely of steel, making it extremely resistant, even when deployed

outside in tough weather conditions. This makes it ideal for marine environments where ordinary bass speakers would corrode.

The unit is engineered for maximum linear excursion and minimum residual noise. Its neodymium transducer has a double voice coil for two selectable impedance settings (4-16 Ω), allowing you to combine up to 4 units powered by the same amplifier channel at 4 Ω . By recalling the dedicated presets, the K-ARRAY Kommander amplifiers are the best electronics to run any Rumble subwoofer, capable to balance perfectly all the settings you need to match with any mid-high speaker of the K-ARRAY's catalog. This helps integrators to find their complete solutions in the same range of products.

Measuring 50 x 28.2 x 15.1 cm (19.7 x 11.1 x 5.9 in) and weighing 18 Kg, the KU210 is available in an elegant black or subtle white and can be customized in any RAL color as well as in premium finishes like brushed or polished steel, or with 24 K gold, rose gold, or antique gold plating, making it easy to blend in or grab attention - depending on your aim - in a variety of spaces.

- Passive subwoofer
- 10" neodymium magnet woofer
- 10" passive radiator
- 40 Hz - 150 (-6 dB)
- 127 dB (peak)
- 320 W
- 4 / 16 Ω selectable
- 4PIN euroblock connector (included)
- Stainless steel material
- Black, White, Custom RAL
- 500 x 282 x 151 mm
- 11 kg
- 14K Gold, Rose Gold, Polished Steel, Brushed

The main product models and codes are:

KU210 black model

KU210W white model

KU210X customizable color and finish (box + grille)

new! KU210M, KU210MW, KU210MX (only RAL colors) = MARINE TREATMENT (on request)

All Rumble-KU210 components are designed by the K-array R&D department and are custom-made under the K-array quality control system in Italy.

Technical specifications	
Type	Passive subwoofer
Transducers	10" neodymium magnet woofer 10" passive radiator
Frequency Response ¹	40 Hz - 150 (-6 dB)
Max SPL ²	127 dB (peak)
Rated Power	320 W
Coverage	Omni
Nominal Impedance	4 / 16 Ω selectable
Connectors	4PIN euroblock connector (included)

Handling & Finishes	
Material	Stainless Steel
Colors	Black, White, Custom RAL
IP Rating ³	IP64
Dimensions (WxHxD) ⁴	(W x H x D): 500 x 282 x 151 mm (19.7 x 11.1 x 5.9 in)
Weight	11 kg (24.3 lb)
Finishes	24K Gold, Rose Gold, Polished Steel, Brushed

¹ With dedicated preset.

² Maximum SPL is calculated using a signal with crest factor 4 (12dB) measured at 8 m then scaled at 1 m.

³ More complete water protection with K-UIP4, more complete feature with K-WF44 accessory not included

⁴ Removable rubber feet not included.

Rumble-KU210

Notes:
Passive loudspeakers require dedicated presets loaded onboard K-array amplifiers.
New materials and designs are introduced into existing products without previous notice.
Present systems may differ in some respects from those presented in this catalog.
