

# Clear guidance, without the noise.

Great tools don't demand attention, they give it back.

70% of office workers spend more than 15 minutes each day looking for meeting rooms. 24% spend more than 30 minutes trying to coordinate and book collaboration spaces. Let's give some of that wasted time back to your employees.

Finding your way, made simple.

Humly Wayfinding makes the next step obvious by showing what's happening now, what's next, and where to go. Less searching. Fewer interruptions. More time back for the actual work.

## Core features

### Intuitive and efficient

- A clear, chronological view: what's on now and what's coming up
- Inspired by departure boards: simple, familiar, fast to read
- No maps. No clutter. Just the next step

### Customizable displays

- Show meeting subjects, organizers, room details, buildings, and available desks
- Add your logo and custom messages for a branded, consistent experience
- Optional QR codes for quick actions when needed

### Seamless integration

- Runs alongside your booking setup without disruption
- Works on any screen that can display a web page (via browser)

### Easy setup

- Configure and manage in the Humly Control Panel
- Deploy via Humly Cloud or on-premises, whatever fits your environment

## Why choose Humly Wayfinding?

### Save time

make it easier to find the right room and get there on time

### Clear by design

a simple, chronological view inspired by familiar information boards

### Fits your space

brandable layouts and content that match your office and needs

### Works as part of the ecosystem

combine with Humly Reservations, Floor Plan, and QR Booking for a more connected experience

### Works with your systems

compatible with leading booking platforms, and adaptable via the Humly API

### Global-ready

31 languages available.

It stays in the background, so people spend less time searching and more time moving.

## Technical specifications
