

# iLIVE 1BP

## iLIVE 1 UHF BODY PACK WIRELESS TRANSMITTER

The iLive 1BP is a bodypack UHF wireless transmitter compatible with iLive 1 true diversity receivers. It includes a backlit LCD display that shows the operating channel frequency and real-time battery level. Designed for integration with lavalier or headset microphones, the unit offers stable transmission and easy frequency syncing. Ideal for mobile performers, presenters, and AV installations.

Technical Specifications	iLIVE 1BP
Carrier frequency range	606 MHz - 621 MHz
Modulation	FM
Channels	32
Frequency response	45 Hz - 18 KHz
S/N ratio	> 105 dB
Antenna	1/4 wave antenna
Transmitter power	3 mW
Working range	60 m (Note: actual range depends on RF signal absorption, reflection and interference)
Battery	2 x 1,5 V AA alkaline battery
Dimensions	110 mm x 64 mm x 25 mm
Weight	76 g
Material	Plastic
