

iLIVE 2BP

iLIVE 2 UHF BODY PACK WIRELESS TRANSMITTER

The iLive 2 BP is a bodypack wireless transmitter featuring an integrated LCD display that provides real-time channel frequency and battery level monitoring. Designed for seamless compatibility with iLive 2 receiver systems, it ensures reliable wireless transmission with user-friendly status feedback for professional audio applications.

Technical Specifications	iLIVE 2BP
Carrier frequency range	606 MHz - 621 MHz
Modulation	FM
Channels	32
Frequency response	45 Hz - 18 KHz
S/N ratio	> 105 dB
Antenna	1/4 wave antenna
Transmitter power	3 mW
Working range	60 m (Note: actual range depends on RF signal absorption, reflection and interference)
Battery	2 x 1,5 V AA alkaline battery
Dimensions	110 mm x 64 mm x 25 mm
Weight	76 g
Material	Plastic
